

ZH99/WF SERIRES Aluminum single sided butyl tape

ZH99 Aluminum single sided self adhesive butyl rubber tape is an exclusive laminate of reflective aluminum foil, rugged, cross-linked polymer films, and a thick layer of butyl rubber. The butyl compound adheres to most surfaces and seals around most punctures, forming a protective waterproof barrier. A high-quality release liner is applied to protect the adhesive surface until installation.

APPLICATION

Alu-butyl tape may be used anywhere a fast, dependable waterproofing barrier is needed and is ideal for roofing, patching, gutter repair, flashing, and general waterproofing where the membrane will be exposed. Designed for low-slope roof applications, it is ideal for mobile homes, trailers, RVs, and sun rooms. No glues, torches, tapes or fasteners are required – only a utility knife and a large push or hand roller are needed for installation.

FEATURES

- *No melt in hot weather or harden in cold weather
- *Anti-UV and aging. Long service life
- *Eco-friendly, No toxic or odor.
- *High tack and good adhesion.
- *For roofing, waterproofing, patching and repair
- *Adheres directly to roof deck or substrate
- *Aluminum surface reflects heat lowering utility costs
- *Easy to install, low cost and labor saving
- *Tough and durable – puncture and abrasion resistant
- *Requires no coating or covering for exposure to sunlight

PRODUCT DATA

Model	97 Series
Aluminum layer	Sliver,white,blackish green, brick red
Butyl Rubber	Black,Grey, off-white
Roll Width	5cm,10cm,15cm,20cm, max 100cm
Roll Length	5m, 10m, 15m,20m,30m
Thickness	0.5-1.5mm
Weight	1.7KG/m ² at 1.0mm
Packing	Shrink wrap+carton
Supply Model	Tape, Jumbo roll Membrane
